The News.

We have, this morning, further particulars of the fearful murder of a mother and two children and burning of the house in which they lived, in Genesee, Waukesha Co., from a gentleman residing in the immediate vicinity, and a private dispatch received last night, informs us that the supposed murderers have been arrested in Waterford.

The New York Herald (doubtfull authority, by the way) says that their is prospect for the immediate withdrawal of the United States troops from Utah, Brigham Young having made propositions to our government, which will be acceptable.

The assertion of the N. Y. *Herald* that Hon. N. P. Banks, was the recipient of a $7,000 bribe in the Lawrence, Stone & Co. matter, is contradicted by Mr. Stone himself.

Messrs. Bowen & McNamee, the New York merchants have resumed payment, the telegraph says.

A fire occurred in Rome, Ga., on Friday last, destroying $100,000 worth of property.

The proceedings of the State Legislature and the general Congress of yesterday, will be found under our telegraphic head.

There is but little change in either home or eastern markets, and that little tends downward. Wheat is dull, and but little came in yesterday.

The Tragedy in Waukesha Co.

One of our Genesee correspondents called upon us, yesterday, to relate some further facts about the shocking murder perpetrated near that village on Saturday night last. Suspition is very strong against two men, one a German, the other an Englishman, or a German who has lived so long in the U. S. as to be easily taken for a native. Those men were traced, on Saturday, from Waterville to a point within four miles of the scene of the murder. They left that point about dusk, say half-past 6 to 6 P. M., and were not seen again till 9 P. M., an hour after the fire was first discovered, when they were not some three miles distant from the spot.—About 11 P. M. they made their appearance at the scene of the murder, and were very particular in inquiring and examining whether any traces of violence could be discovered on the bodies of the women and two children. This circumstance, their general conduct and appearance, and the fact that they had, some weeks before, made minute inquiries as to Werner's means, and had learnt that he was in daily expectation of receiving a considerable sum of money from Germany, all tended to direct suspicion towards them. Nevertheless no steps were taken to arrest them till Monday afternoon, when officers started in pursuit.

One of the two, the German, is short, thick-set, with a stiff neck and projecting head. He is about 28 years old, wore light-colored clothes and had on three suits. The other is nearly six feet in height, of ordinary make and appearance and with light sandy whiskers. They gave out that they were travelling from the Clyman House, Dodge County, to Waterford, Racine County.—On Saturday evening, they were at Waterville inquiring of everybody the way to Mukwonago, though they had been frequently seen to pass that way before; and at midnight, of Saturday, after the fire, they started from Genesee village; on their way South. So much for the supposed murderers.

What confirms the universal opinion that the wife and two children of Werner, were murdered before the house was fired and burnt, is this: the persons who first arrived at the fire found the front door forced off, but the interior of the house was a mass of flame, so they could not get in. There was none of the ordinary furniture, or bedding, however, to be seen, but in the far corner there was a *large* heap piled up, all in full blaze.

Out of this burning mass, after awhile, protruded the head and body of the woman, charred to a cinder. The burnt remains of the two children were found in the same spot. The only money in the house, $7,50 in gold, was found after the fire, but a silver watch, with a steel chain, which hung on a nail in the wall, had disappeared, though the *nail itself* was found sticking in the log, (the building was a one-and-a-half story log house.)

Our informant says that intense excitement in regard to this shocking tragedy, prevails in the vicinity. The remains of the victims were buried Monday afternoon, the people from all the country round flocking to the funeral. Had the murderers been in custody, they would probably have met with speedy justice. Some fault is found with the local authorities, that more prompt steps were not taken to apprehend the suspected murderers. We trust, however, that they will yet be overtaken and dealt with as the law directs.

Arrested.

Private Dispatch to the Daily Sentinel.

EAGLE, WIS., Feb. 2.

The men who are supposed to have committed the recent murder in Genesee have been arrested at Waterford. R. K.

The Legislature.

In the SENATE, on Monday, a communication was sent in from the stockholders of the Wisconsin & Superior R. R. which was referred to the Investigating Committee. Resolutions were adopted, looking to a reform in the Public Printing &c., in the Loaning of School Monies, and for the punishment of malfeasance in any R. R. Directors, Officers, or Agent. A number of local bills were introduced and passed.

In the ASSEMBLY, after the usual petitions &c had been presented, sundry bills introduced and two passed (one to charter the Columbia *Stad*, and *Ban Verein*, of Milwaukee) the Assembly passed the remainder of the day, in discussing the bill relating to summoning witnesses before the Joint Investigating Committee. After long debate the bill passed, Yeas 69, Nays 7. Nothing else done of public interest.

OLD AMERICA PARTIES.—One of these very pleasant social parties, comes off this evening, Concert Hall.

CITY MATTERS.

COMMON COUNCIL PROCEEDINGS.—A regular meeting of the Common Council was held Monday evening; present, the Mayor and a quorum of Aldermen. Sundry petitions and accounts were presented and referred. The Committee on Taxes reported in favor of remitting certain taxes levied through mistakes of assessors.—Ald. Prentiss advorted to the great number of similar applications before the Committee, being ten-fold greater than in any previous year. The Committee had decided not to act on any more such applications, unless accompanied by a certificate from the Assessor that he had made a mistake. The report was concurred in.

Permission was *refused* to Mr. Fitch to erect a frame building on the site of the late fire in the Fifth Ward.

Ald. McCormick offered a resolution, authorizing Local Committee of Third Ward to erect a breakwater at the foot of Huron street.

Ald. Prentiss opposed the resolution. It was a matter for the Street Commissioners of the Third Ward, to act upon, and not for the Council.—The resolution was withdrawn.

A special election was ordered to be held in the Fourth Ward, on the 17th inst., to fill the vacancy in the Council, caused by the "permanent" removal from the city of Ald. TAYLOR.

The Harbor.—Alderman COTZHAUSEN offered the following resolutions:

Resolved, That Messrs. Mygatt, John Rugee, Edwin Palmer, John Sercomb, and John Fuehrer are hereby requested to act as a committee carefully to examine the harbor and straight cut, and to report to this board the result of such examination, and what balance, if any, in their opinion should be paid by the city to the contractors.

Resolved, That the said Committee are authorized to employ a competent Engineer, and all city officers are instructed to render such assistance to the said Committee as may be desired by them.

Resolved, That the City Clerk be instructed to serve each of the said gentlemen with a copy of the foregoing resolutions.

Ald. HADLEY opposed the resolutions, and gave a detailed history of the construction of the Harbor. It were all very well for persons to find fault with the cost of this improvement now, and to say that they could have done the work for less. But why did they not come forward, at the outset and offer to do it? He (Ald. H.) had predicted from the first, and knew all along, that the Harbor, on the present plan, would cost the city $250,000. He thought if the Council could not investigate its own acts, without the help of outsiders, they had better resign, and let he People elect others to fill their places.

Ald. Prentiss thought that a full investigation was due to the Tax-Payers. Without such an investigation he, for one, could not consent to vote for the issue of $95,000 in bonds, to pay the claim of the contractors. When satisfied that the claim was right, he would cheerfully vote to pay it; but not before.

Ald Walter thought the resolutions a slur upon the Board, and contended that the prices charged and paid for iron, stone, timber &c., were perfectly fair.

Ald. Mallory also opposed the resolutions, as casting reflections upon the Council and the City Engineer.

Ald. Goizhausen, and Ald. Plankington supported the resolutions.

Ald. Johnson moved to add the Harbor Committee and City Engineer to the Committee named in the resolutions, and Ald. Reed moved to add, also, Messrs. Tweedy, Crocker, Heubschmann and Waldo.

Finally after much debate the whole subject was postponed for one week.

SALARIES OF OFFICERS.

Ald. Prentiss moved as a substitute for certain resolutions previously offered by Ald. Plankington at a former meeting, the following resolutions:

Whereas, The Constitution of this State (chap. 4, sec. 28,) expressly prohibits any increase or diminution of the compensation of any public officer, during his term of office, and,

Whereas, The city charter also provides in Chapter 3, sec. 3, that the compensation of all officers elected, or appointed by the Common Council, "shall be fixed by resolution, at the time the office is created, or at the commencement of the year, and shall not be increased or diminished during the term such officer shall remain in office," therefore,

Resolved, That the compensation, or annual salary of the City Comptroller, City Clerk, City Attorney, City Marshal, Chief of Police, City Surveyor, and Chief engineer of the Fire Department, shall be at the several rates fixed for each of said officers by ordinance or Resolution in force at the time of their election, or appointment, and the pay of all other officers, shall be at the rate provided, when such office was created; and all resolutions or proceedings of the Common Council, which in any way or manner, conflict with this resolution, are hereby rescinded, annulled, and made void.

Resolved further, That if any incumbent, of any office in the city government, for the fiscal year ending in April 1858, shall have drawn any part or portion of his salary, or wages, at a rate higher than the amount fixed by ordinance, or resolution, in force at the time of his appointment, or when such office was created, and such excess, shall be deducted from the amount due to such officer, at the end of his term, and in case the amount overdrawn, shall exceed the last quarter's salary, or monthly wages of such officer, the balance due the city, shall be refunded, or collected, as an illegal and unauthorized payment.

Resolved, That the City Comptroller is hereby directed and instructed to audit all claims for salaries, or pay of any city officer at the rates referred to in the foregoing resolutions.

On motion the resolutions were laid on the table, to be acted on at another meeting.

Ald. Heinemann asked if the Police Justice was included, if not he wanted him included in the resolutions.

A communication from the Comptroller was then partly read; when the accounts, referred to in the communication, were passed on a call of the ayes and noes.

Ald. Hadley moved an adjournment to next Monday evening; carried and the Council adjourned.

SOUP HOUSE.—Over 200 people a day, are now being fed at the soup house. The majority of them, perhaps, are children. Some of the provisions are about exhausted, and some wood, potatoes and other articles would be very acceptable immediately.

ACCIDENT.—A young son of Edwin Palmer, aged 18 years, says the Free *Democrat*, broke his right arm just above the wrist last evening. His foot caught in a rope, as he was running, throwing him down, striking on his wrist. The fracture is a pretty severe one, though it is thought he will recover the use of it, by proper care.

SNOW.—About two inches of snow fell in this city on Monday night, but it nearly all disappeared yesterday. The clouds were heavy, and the indications favorable for more snow. A good fall of snow would be hailed with joy in all parts of the State at the present time.

The Merchants' Mutual have declared a dividend of 10 per cent. script, and 6 per cent. on the guaranty capital. The net profits on the business for the past year, $18,000. In accordance with an old practice, the Officers and Directors of the Company, treated the members of the Press, and other invited guests, on Monday afternoon, to the "annual lunch" at Belden's, which was as usual, a pleasant affair.

Commercial Insurance Company.—The statement of this company shows it to be in a flourishing condition. It is among the most thriving companies in the country. Gross amount of premiums received, $6,000; profits in banking department, $8,000; losses $2,960; net earnings, $8,300.

The losses of the company were so small that no assessments were necessary.

DISGRACEFUL CONDUCT OF FIREMEN.—A very disgraceful affair took place in the Third Ward on Monday night, in which the members of Engine Co. No. 6, were the principal actors. It seems that the members were collected at their house that night having a drunken carousal, and, towards 2 o'clock, they all went down to the Fifth Ward, hooting and yelling like savages as they went through the streets, throwing over dry-goods boxes, barrels, and everything that came in their way, and arousing people from their slumbers everywhere they went, and in fact, they had the whole neighborhood in an uproar. In coming back from the Fifth Ward, they met Policeman Shaughnessy and Collins, who endeavored to put a stop to their disorderly conduct without arresting any of them. But they would not listen to the Police, and continued making more disturbance than before. The Policemen then attempted to arrest some of the most disorderly ones, when a crowd of the others pitched into them, and a regular melee ensued. The Police were obliged to use their clubs and we understand that several of the firemen got badly beaten. The two Policemen succeeded in bringing one of the fellows to the Station house, one of them keeping the other rowdies off, while the other conducted the fellow there.

A number of the disorderly firemen followed the policemen up into the 7th Ward, trying to rescue the fellow, whom they were arresting, and other policemen coming to the assistance of Shaughnessy and Collins, six of the rowdies were arrested, four of whom were fined $10 each, in the police court yesterday morning, and the examination of the other two postponed for a day or two, as they had not got over the effects of the fight. The names of those brought up in the police court yesterday, are Thomas O'Hearin, Timothy S. Kahan, Michael Murry, Patrick Hanley, and Michael Lahart.

Of these, Murray and Kahan, were sent to jail for twenty days in default of their fines.

Such conduct as these firemen have been guilty of, is a disgrace to the company, and cannot be too severely repremanded. We do not doubt that there are many respectable men belonging to this Company who would not countenance any such outrageous conduct. There is but one way in which the Company can redeem their honor in the eyes of the public, and that is promptly to expel the rowdies who have been engaged in this disgraceful affair and failing to do this, the Common Council should disband the company.

SUDDEN DEATH.—We regreted to learn yesterday of the unexpected decease of James G. Besley of the firm of Besley & Watkins, brick makers in this city. Mr. Besley died suddenly at his residence, on Jefferson street, on Monday. He was a sterling business man, and a respected member of the community.

THE MILITARY CONVENTION.—Company A., of the Light Guard battalion together with a representation from most of the other Military Companies of this city, left to attend the convention at Madison, yesterday afternoon. The Light Guard marched to the cars, proceeded by a band of music.

POLICE COURT.—In the police court yesterday, Timothy Skahan, Michael Murray, Patrick Hadley, and Nicholas Lahan, were fined $10 each for disorderly conduct. Skahan and Murray were sent to jail in default of payment.—Thomas O'Hearin were fined $8 also for being disorderly, and the case of John Harrison, charged with the same offence, was continued till to-day for examination.

CHOICE CIGARS.—Messrs. L. J. HOBART & Co., at No. 229 East Water Street, are in receipt of a lot of choice cigars. Yesterday, hearing that a delegation of the Light Guard was about starting for Madison, they, with their customary liberality, presented some samples of their stock, to be tried by the way.

OFFICE OF THE DAILY SENTINEL,
MILWAUKEE, Feb. 3, 1858.

Received by M. & M. R. R., Feb. 2—212 bbls flour, 1,400 bus wheat, 800 bush oats, 2,000 lbs hides, 1,900 lbs pork, 150 lbs butter, 1 bbl eggs.

Receipts of produce continue light, and the market is without animation, and prices are rather tending downwards. Pork has rather declined, the best article bringing only 5,00, and little enquiry at that price. In winter wheat there is little competition, and ordinary red will not bring more than club. We quote:

WHEAT—85@90 for choice Club to mill, 65@75 for the range of Winter.

RYE and BARLEY—Nominal and no sales.

OATS—Quiet, 25.

CORN—Dull, 80@85.

WONDERFUL!

ACCIDENT, and various applications have lately developed some very wonderful and pleasing results. One gentleman writes from Albany, N. Y., every astonishing effects in his case, (given up by all the doctors of the learned Capital. An other case just transpiring in Philadelphia, now exciting no little attention together with some others, a statement of which the Dr. is now preparing, will soon turn the tide of inquiry and interest upon my Electric Oil, as was never before directed to a medical discovery. More has already been demonstrated than we dare proclaim; as it would not be half believed. It has afforded immediate relief in many cases of Prolapsus Uteri, and Piles are relieved as if by magic. A gentleman from N. O. came here with his family to have his eyes operated on, having nearly lost them from Neuralgia and Rheumatic affections, has been so relieved as to defer the operation in the confident belief that my Oil will restore him. It has afforded most unexpected relief in the breast and side, attended with cough and sore throat, and it at once relieves the worst kind of running sores, felons, and all painful affections; it thoroughly and promptly cures Rheumatism. John Wyeth, Esq., the well known druggist of Harrisburg, writes June 6th, that John Forbes, of that place, who had suffered great pains acout his loins and on one side about the hip, after using Dr. Jayne's remedy a week, then had the aid of a physician some time, who bled him, &c., was cured effectually with one bottle of my Oil. We want you to come, let us examine your case; do not be disheartened, we make no false promises; we are a regular physician, and moreover you don't have to pay a long time for medical advice and then be told you cannot be helped. We make no charge for advice, if we cannot cure you we will tell you so. Come, old and young, with your pains, to No. 39 South Eighth street, three doors below Chestnut.

P. S.—The Oil is pleasant and harmless.

The Sentinel in Oconto.

OCONTO, Jan. 29th, 1858.

MESSRS. EDITORS:—Enclosed find $10 and a club list for the old favorite "*Sentinel*." I received my paper, yesterday, with the new Prospectus, about noon; and I thought I would see if overbody was "strapped." So I walked up street one block and was gone from my store about twenty minutes, and behold, I had a list of ten names for the *Sentinel*, with the cash up, and nearly all among the laboring class. Think of that, you miserable backwood inhabitants of Detroit & Chicago! Come up here—where you reported us all "starving"—and you shall be taken care of until you can "browse" in the Spring.—If you have not got the "needful" to come with, just send along that "Propeller," which was coming here last fall, and charge cost to starving Oconto,

Yours truly,
E. W. M.

(We commend the example of our Oconto correspondent, to the imitation of our Republican friends throughout the State. There is hardly a town in Wisconsin, where, with half an hour's canvassing by some friend of the good cause and well-wisher of the *Sentinel*, a club of 5, 10, or 20 subscribers could not be got up. Such favors are especially grateful, just now, when other sources of newspaper income are, in a great measure, cut off. ED. SENTINEL.)

A Letter from Mr. Kilbourn.

We publish this morning a letter addressed by BYRON KILBOURN, Esq., to Mr. DAWES, which we find in the last Beaver Dam *Citizen*. It gives a satisfactory account of the proceedings of the new Board of Directors of the La Crosse and Milwaukee R. R., and pays a just compliment to the energy and success with which that Company has prosecuted its operations during the past year. It claims, too, and not unreasonably, for the new Board and the great enterprise they have in charge, the confidence and support of the People and the fostering care of the Legislature, and it deprecates, as hurtful to the best interests of both People and State, any interference by the Legislature, with the disposition of the Land Grant. We think these views of Mr. KILBOURN sound, and commend them to the favorable consideration of our readers.

In one point only do we think Mr. KILBOURN mistaken. He speaks of an attempt now making, originating with parties in Milwaukee, to procure a repeal of the Land Grant and the transfer of that valuable gift to other parties. That there has been some feeling against the La Crosse Co during the past year, growing out of various financial operations, is not to be denied; but we are disposed to think that it is passing away; and that the almost universal sentiment of our citizens is, to give the new Board of Directors fair play, full encouragement, and a reasonable chance to retrieve the fortunes, and complete the construction of the Road. So long as these gentlemen push on the work vigorously and carry out, in good faith, the contracts and agreements they have made, it would be unjust to them, injurious to the Road, and most impolitic on the part of the State, to throw any obstacles in their way. Such we believe to be the general feeling in our city, and throughout the State. The completion of the La Crosse & Milwaukee Rail Road, with its extension to Minnesota—destined to be the greatest thoroughfare in the North-West—is of the first consequence to Milwaukee, as to Wisconsin, and the common desire and disposition is, to help, rather than hinder, the good work.

The "Philanthropic" News for "Slavery."

Under the head of "Philanthropy—Slavery," the *News* of yesterday entertains its readers with a lengthy dissertation, going to show that "Philanthropy" is decidedly a bore and "Slavery" a blessing; that England missed it in emancipating the slaves in her West India Islands; that France also, put her foot in it, the same way; while consistent and enlightened Spain, having stuck to Slavery all through, *her* colonies are "productive and prosperous." The *News* proceeds to quote the London *Times* and Paris *Constitutional*, as seriously arguing in favor of reviving Slavery, and seems to think, not only that these arguments are sound, but that they reflect the sentiments, and will stimulate the action of the English and French People. To what particular purpose the *News* adduces these facts we cannot guess, unless it be to discourage that phase of "philanthropy" in the United States, which looks to and labors for, Universal Emancipation, or to inculcate the idea with the rank and file of the party that, after all, Slavery is the natural and normal condition of the African race, and that Liberty is only fit for the white. There may be some question whether this is sound Philanthropy, but there can be no doubt at all that it is genuine "Democracy"—for do not all the "National Democratic" papers, North and South, sing the same tune, and shout, with one accord, "Great is Slavery?"

The following anecdote, fresh to our hand, will serve as a present answer to the *News*' lament over West India Emancipation:

EFFECTS OF EMANCIPATION.—While Mr. Gartrell, a ferocious pro-slavery orator from Georgia, was making his maiden speech in the House of Representatives, the following episode occurred:

"He was dealing out statistics about the diminished production of sugar and coffee in Hayti—a diminution which proved nothing except that in 1788 the entire laboring population, men and women, were scourged into the culture of sugar and coffee, to the neglect of everything else, while in 1858 the population lives in ease and comfort and consume sugar and coffee, while their ancestors only raised them for the consumption of others. Mr. Blair rose at this point and stated to the House that the exports from this country to that portion of Hayti occupied by free negroes, were $350,000 greater than our entire trade with Mexico, which has 8,000,000 population. Our exports of flour to Hayti in 1851, as shown by the Congressional document on Commercial relations, was eight times more than to Cuba; of pork, six times more; of dry goods, twelve times more. "This," said Mr. Blair, "is the value of that island which has been destroyed, as it is said, by the emancipation of the slaves."

Trying to Evade it.

We alluded the other day, to a report of Secretary Jones, in reply to a resolution of the Legislature, which showed that a certain kind of printing given out as sops to black Republican editors, amounted to over $20,000. The *Sentinel*, true to its instincts, feigns blindness, and goes back to the annual report of the Secretary, to which we made no reference, and shows that the printing paid for by the State, was much larger than we stated it. Now we were speaking of a special report, made in answer to a resolution of the Legislature.—*News of yesterday.*

"Is it there ye are?" Now, let us remind the *News*, that the "general report" necessarily includes *all* the amounts paid for printing, while the "special report" refers, as that paper remarks, to "a certain kind" only—to wit: that done by "Black Republican" publishers. The *News* thinks it outrageous that $20,000 should be paid out, "as sops," to its "Black Republican" brethren, but has not a word of objection to make to the $14,334 paid out to its Democratic yoke-fellows. In other words, the *News* is conveniently blind of one eye—the eye, for example, which in November last could see nothing but "fraud" in the Lecompton Constitution, but now—thanks to Dr. BUCHANAN, an eminent optician at Washington—discovers all sorts of Democratic beauties in the same instrument.

Compensation for Slaves.

IN UNITED STATES SENATE, Jan. 14, 1858.

The Senate proceeded, as in Committee of the Whole, to consider the bill for the relief of William K. Jennings and others. It is a direction to the Secretary of the Treasury to pay, out of the fund heretofore received from Great Britain, under the first article of the treaty of Ghent, for slaves taken and carried away by the forces of Great Britain, during the war of 1812, to sundry persons.

The bill was reported to the Senate without amendment.

Mr. Seward: Before the vote is taken, I think it proper to say that this bill has been very fully discussed in the Committee on Foreign Relations, of which I have the honor to be a member; and in that committee I dissented from the report, and shall vote against the bill, in accordance with the vote I gave in committee.

It is evident, sir, that the proposition to pay money for slaves, is presented in this bill in the simplest and most unobjectionable form in which it could be offered. It comes not as an exception to the principle stated justly by the honorable Senator from New Hampshire; but nevertheless, it is a transaction between Great Britain and the United States, in which Great Britain has recognized property in man, and it is presented for my vote—yea or nay. When I shall have given my vote for this bill, I shall have made myself a party to that transaction. There is no necessity, in my view, for doing so. There is no principle, no sentiment, no feeling, no motive in my constitution, that will permit me to acknowledge property by man in man. It does not at all mitigate my opposition that Great Britain has agreed to it. I must take this occasion to differ from the honorable Senator from Virginia, as to the conclusion at which he has arrived, namely, that there is a change of public sentiment on this subject in Great Britain.

The best observation that I have made on that point, has brought me to the conclusion that there possibly is a political change in the Government of Great Britain, in favor of slavery to some extent; but while that is the result of commercial and other influences operating on the Government, I am satisfied that the opinion of the *people* of Great Britain, and of mankind generally, is to-day more strongly and firmly combined and consolidated in favor of universal freedom than ever before. If I thought, with the honorable Senator from Virginia, that Great Britain was going over to the side of slavery in this great dispute, it would be an additional reason why I should withhold my concurrence, because it would be so much the more necessary to protest, when friends so distinguished, and who have acted so grand a part in this great battle, as the people of Great Britain, had faltered and were lulling away from the cause of truth and virtue.

After some debate between Messrs. Hale, Mason, Doolittle and Pugh, the bill passed—ayes 32; nays 160.

A NEW SETTLEMENT IN THE NORTH.—In speaking of the progress of a new settlement in the northern part of Portage County, called GRAMKOW, the Stevens Point *Pinery* says:

When it is understood that this place was begun sixty-five miles beyond the farthest limits of civilized habitations, and that a road had to be made the whole of that distance through heavy timber, some idea of the hardships, and privations of the pioneers can be formed. We are informed that they have comfortable hotels built and provisions provided for the winter. About thirty claims have been made and more or less improvements are being made upon them all. A large portion of the settlers went up in the employ of a firm from this town and being suited with the country, have taken claims, and concluded to stay. This will effectually open up that region which is one of the finest in Wisconsin. In going up, a strip of barrens twenty-five or thirty miles is passed, which has deceived some, and led to the opinion that the whole Northern part of the State was sandy and sterile.—After passing Pelican River, the land is found timbered with Sugar-Maple, Ash, Bass Wood, Elm, &c, with a deep black soil, and a Clay subsoil, and its fertility is unquestioned by all who have seen it. Small lakes of clear water are scattered thickly over the whole region, all the streams taking their rise in them, in fact, many of the streams are only inlets and outlets for a chain of lakes. One stream, Lake River, has been traced through seven, (called sugar camp lakes,) and its source not reached. All these lakes are abundantly supplied with fish of the finest quality. White fish are found in some of them. There is a country wild enough to satisfy the most adventurous, and large enough to afford elbow room for the enterprising, and restless pioneers for many years to come.

Mr. Fox, of the firm of Holms & Co., left our village for there on Monday last, taking with him his family consisting of his wife and two children. Two young ladies went with them. These three with Mrs. Bonnlville, who is now there will constitute the entire "upper ten" of the new City. Their nearest white neighbors will be at least sixty miles distant. This is the manner homes are made in the West. Success to them.

CHICAGO MUNCHAUSENISMS.—The Chicago press are unrivalled for getting up big stories about their own city. Recently one of them published an Annual Review of the Trade, Commerce, Population &c., of the "Garden City," which contained so large an infusion of the Munchausen element, and provoked so much good natured, but damaging raillery from the Buffalo, Detroit, Cleveland, St. Louis and other papers, that the rest of the Chicago press made a virtue of necessity and fell foul of the offending member of their own Association, at whose extravagant inventions they professed to feel greatly shocked. This seeming reformation, however, was short-lived. The Chicago *Democrat* of Monday, leads off in a fresh strain of Munchausenism. Remarking upon the fact that the taxes of Milwaukee, this year are nearly as large as those of Chicago, the *Democrat* quietly adds that Chicago has "*four times* the population of Milwaukee." Now the population of Milwaukee is close upon 50,000, which multiplied by "four" would make the population of Chicago *two hundred thousand*. But as it is perfectly safe to deduct 50 per cent from any Chicago story, this correction would make the population of that water-lovel burgh just 100,000, which we suppose to be about the fact.

NORTHERN EMIGRATION TO NICARAGUA.—The Washington correspondent of the N. Y. Courier says that measures of the most practical kind have been already adopted for carrying out the scheme of emigration Southward, sketched by Mr. Thayer, of Mass., in his speech in the House of Representatives; that an association has been formed for colonizing Nicaragua with industrious Americans, not fighters, but workers; that Hon. E. Corning, of Albany, has consented to accept the chief-mauship or presidency of the association; that several thousand applications have been made for passage to Central America under the auspices of the Company, and that the Minister from Nicaragua, Gen. Yrizarri, has signified his approval of the enterprise. To this phase of "Filibusterism" there can be no possible objection.

DOCTORS EMIGRATING FROM WISCONSIN TO ILLINOIS.—The New [London (Waupaca County) *Times* of Jan. 26th says:

We regret to learn that Drs. Linde and Perry are about to leave our village for the South. The reason given for withdrawing from our community is, that it is so healthy that they are frequently out of employ, consequently they intend seeking a climate more congenial to their profession. Cairo, Illinois, we believe is the point fixed for their location.

Aside from the good word which the *Times* speaks for Doctors LINDE and PERRY, the very fact of their removing from Wisconsin to Illinois, in pursuit of business, is an evidence of professional sagacity which our Illinois neighbours will not fail to appreciate.

NEWS FROM UTAH.—The Leavenworth *Ledger* of Jan. 22nd, says:

"An express arrived at the fort yesterday from the army in Utah, bringing the dispatches to the government. It came through in thirty-five days, and reports everything quiet—the army is in good spirits, having a good time generally."

☞ Our spring-like weather still continues.—Many of the early shrubs are full of buds, especially the lilac. A honey-suckle at our front door has leaves upon it an inch long. The lake is as free from ice as it ever was in August.

So says the Ashtabula *Sentinel*. The same is true hereabouts. The clover has started up fresh and green, violets in full bloom have been picked within two days, the lilac buds are bursting, cherry tree buds have swollen almost to full size, and—*mirabile dictu*—a bantam hen on Huron street has just come off her nest with a full brood of chickens, hatched in the open air, and fresh laid eggs as plenty as in April. Out—out—out, os—da—out. So much for January, 1858.—*Cleveland Herald, Jan. 29.*

Letter from Byron Kilbourn.

MILWAUKEE, Jan. 25, 1858.

WM. DAWES, Esq.,—*Dear Sir*:—Enclosed herewith, I send you a copy of my address to the Board of Directors previous to making a change in the Board, by the election of eastern Directors. It was then, and previously, a cardinal point with me, that on no consideration would I agree to make the change, unless it were distinctly understood that the farm mortgage stockholders were to be fully protected. On this ground alone, I consented to the change; and those whom we were then about to bring into the board as new members, pledged themselves fully and unequivocally on this subject. Since their election, they have gone on in good faith to provide the means of paying the interest on all those mortgages which fell due on the first of January inst., and if not interfered with, they will provide for all future interest, and our citizens will not be troubled. The new board, as I am informed, have not only made provision for the payment of this interest, but also have made arrangements for completing the road to La Crosse, which being once accomplished, the stock of the company will be worth par, and its bonds be worth as much as the bonds of any other company in the market. This is a consummation devoutly to be wished, and will save all our citizens interested in it, from sacrifice.

It is to be borne in mind, that notwithstanding the extraordinary opposition made against this company during the past year, and the unfavorable state of money matters generally, still it has actually accomplished far more than any other company in the western country during the same time, in the progress of its work. Since January last, in less than eleven months from the time of first letting the contract, this company has made and completed, and put into successful operation *forty-three miles*, from Portage City to Lisbon; has also done more than half the grading on *thirty-six miles* more, from Madison to Portage, which line can be easily finished during the present year, unless prevented by an improper interference and opposition from among our own people. The road being so completed, the farm bonds will be safe; the company can pay all its debts and meet all its obligations; its stock will be No. 1; and its bonds as good as any in the market.

But there is a project on foot, (put in motion by certain parties at Milwaukee, who have opposed this company from its very commencement, and from whom, it is too humiliating to say, all the opposition to this company has originated,) the object of which is to induce the Legislature to repeal the land grant, by the pretence that it was procured by improper means; and that the company has not performed its duty under the act making the grant. All this opposition, let it be borne in mind, originates with certain parties with them in other parts of the State, and who are striving, by every means in their power, to create prejudice in the minds of the Legislature against the company, in the hope of inducing the Legislature to pass such an act, with a view of destroying the credit of the company to such an extent as to prevent it from raising money to pay the interest on its bonds, and complete the road. These parties would be willing to see every farmer in the country ruined, if they could thereby kill the La Crosse Company; and they will spare no effort to effect that result. But whether they can induce the Legislature to adopt so suicidal a policy, remains yet to be seen.

If they can, the first effect of it would be to prevent the Company from raising the necessary funds to pay the interest on its bonds, and the work on the road must stop. This is what those parties desire; and if it should be brought about, against the wishes and the best efforts of the company, it would not certainly be the fault of the company, and it ought not to be held responsible for any result, which it had used all its efforts to avert. These destructive parties have used every possible means in their power, to spread dissatisfaction and prejudice in the minds of the people, for the purpose of inducing them to petition the Legislature to pass such acts as must lead to the prostration of the Company, which in its results must inevitably re act upon the people, to their own ruin in many cases, and all for the gratification of the parties who are willing thus to tamper with the best and dearest interests of the country, for the purpose of gratifying their personal sophistry, or securing some political advantage to themselves. Should they succeed in such an unpatriotic scheme, those who may be duped, will see their error when too late.

The present Board of Directors is struggling against all the adversities of the times, and of this local opposition, to raise means to pay the debts of the company and the interest on its bonds; and also to finish the road to La Crosse, and from Madison to Portage, during the present year; for which purpose, they have arrangements already made, which will be carried out, if not interfered with by the Legislature; and it is undoubtedly the true interest of every good citizen, and the duty of every friend of the people in the Legislature, to aid the company by every possible means to accomplish that result, rather than lay a straw in its way. By so doing, they will secure to the country all the benefits which must flow from the completion of this important work; and to our citizens, whose property is invested, a perfect security against all future contingencies and dangers.

Notwithstanding all the hostility and opposition, which this company has had to encounter, it has gone on more rapidly than any other company in the State; and if it had not been obliged to overcome so many difficulties improperly thrown into its way, the grading, would by this time have been completed to La Crosse, ready for the track, the iron for which is already purchased and on hand; and except for the extraordinary and unprecedented opposition, which has been thrown in its way, the company would have been able to comply with all its obligations, and no difficulty would have been heard of, in relation to the interest on the farm bonds. The Company has used all its efforts, as you are well aware, to do everything that was possible to meet all these obligations, and it is not its fault, nor the fault of its agents, that that object was not fully accomplished; but it was the fault of those who were instrumental in throwing difficulties in the way. And if ever those same parties shall succeed in inducing the people interested in the La Crosse road and the Legislature, to join in a crusade against the company for the gratification of their selfish ends, they will thereby accomplish a great injury to the State and the people, which I certainly hope may never be consummated; and against which every friend of the country ought raise his voice and oppose his best efforts. Such has been, and will continue to be my course, and if I should stand alone, unsupported by the people, and those calamities should come, the fault cannot lie at my door.

If the people will, by their united voice, come to the rescue and sustain the Company, all will come out well; but if opposed by the public voice it may fail, and the people suffer. The Company has never done anything to justly forfeit the confidence of the public. It has done its whole duty to the people and to the State, to the best of its ability; and now, if it can have their support, it will be able to complete the road, pay its debts, meet all its liabilities, and place its stock in a high rank. But if it must meet opposition that it cannot overcome, the result would be disastrous indeed. It would involve the farmers in the payment of their mortgages, or expensive law suits to repudiate them which would be quite as bad; and it would leave this city, liable for the payment of one half a million dollars of its bonds to the company. It would be a pity, a sad pity, if such a result should be brought about by such improper means. Can it be, that the representatives of the people, and of the city, will consent to a measure so fraught with mischief? I cannot believe it if properly understood.

You have been in a situation personally, to know my course, and that of the company, during all the troublesome times of the past season, and I have no doubt will have the candor and independence to state it fully at all times; and I therefore authorize you to make such use of this communication, and the address herewith enclosed, as you may think proper. Having resigned the trust heretofore placed in my hands; and withdrawn from all active participation in the business of the company, I shall have no responsibility for what may be done in the future; but I still feel as lively an interest in the final and complete success of the enterprise, as if I continued to be personally concerned in its management.

Yours truly, &c.,
BYRON KILBOURN.

BRIBERY AND CORRUPTION—SPECIFIC CHARGES.—Ex-Governor Doty sent in a communication to the Senate, this morning, making specific charges of bribery and corruption, in connection with the disposition of the Land Grants, against the Chicago, St. Paul and Fond du Lac Railroad Co., and Perry H. Smith, member of the Senate formerly, and a member of the present Assembly.—*Madison Journal.*

THE SECRET.

In a young lady's heart a secret was lurking;
It tossed and it tumbled, and longed to get out;
The lips half betrayed it by smiling and sighing,
And the tongue was impatient to blab it, no doubt.

But Honor looked gruff on the subject, and gave it
In charge of the teeth, so enchantingly white—
Should the captive attempt an elopement, to save it
By giving the lips an admonishing bite.

'Twas said and 'twas settled, and Honor departed;
For Love quivered, trembled, but dared not rebel;
When right to its ills Secret suddenly started,
And, half in a whisper, escaped from its cell.

Quoth the teeth, in a pet, we'll be even for this;
And they bit very smartly above and beneath;
But the lips at that 1 stant were bribed with a kiss,
And they popped out the secret in spite of the teeth.

THE MURDERER OF GRISWOLD.—It will be remembered that a man named Marvin Van Buren Griswold, aged about forty-one years, an employee of Horace Kilham, resident near Jackson, Amador county, was murdered on the 7th of November last, and the safe of H. Kilham robbed of about six thousand dollars. Suspicion immediately attached to a Chinaman named Fousin, who had been employed as cook by H. Kilham, and upon several other Chinamen, who had fled. Rewards for the apprehension of Fousin and another Chinaman (deemed a principal in the murder) were offered, and also for the recovery of the money—amounting in the aggregate to $2,600—$1,500 by H. Kilham, $500 by the Governor, and $500 by the Chinamen in that vicinity. Fousin and his accomplice (Ohow Alee) immediately on the commission of the murder and the robbery, came to this city via Folsom, where they were recognized by some of their countrymen whom they bought off for $1,500. They then procured horses and started for Marysville, but getting confused on the road at Lodoni their animals and took passage by mistake on the Auburn stage. Officers from this city were so closely on their track when they arrived in Auburn, they were compelled to beat a precipitate retreat, and hurrying away dropped the key of Mr. Kilham's safe from which they had abstracted the money. The key was subsequently recovered, and identified by Mr. K. The fugitives went from Auburn across the country to Long Bar, on the Yuba, and on the 26th of December proceeded to Marysville, where they hired a house and contemplated entering into the washing business with a Chinaman named Ah Kow. Ah Kow recognized them and informed Jesse O. Gordon, of Marysville, of the identity of the parties. The latter, in company with another, proceeded to their house and arrested them. Fousin drew a pistol on them, but the arrest was consummated without a struggle. Ah Kow immediately telegraphed the fact to ex-sheriff Durham, of Amador, who responded in person, accompanied by Mr. Kilham. The Chinamen were brought to this city on Friday, and left for Jackson in custody of Sheriff Durham, on Saturday morning, arriving there safely about 5 o'clock that afternoon. Fousin acknowledged his guilt, and stated that Griswold was blowing gold dust at the time the attack was made; that they first struck him in the head with a club, and then applied a cord (about an eight of an inch in diameter,) to his neck, and drawing it tightly, (bow string fashion) buried it deeply in his flesh—sufficient to produce strangulation, if necessary. They then forced the body under bunk, which was just sufficiently raised to permit it, robbed the safe, and left. The safe was opened by Fousin, his accomplice having tried in vain to unlock it for some time in vain. It would appear, however, from the the testimony elicited at the inquest, that the blows on the head, which produced a fracture of the skull, and were sufficient to cause death, were given with a clung shot, which was afterwards found in Fou-in's room. The deceased, who is represented as having been an estimable citizen, and had been in K.'s employ nearly three years, was a native of Saratoga county, New York, and afterwards resided at Milwaukee and Oregon.—Ex-Sheriff Durham, Mr. Kilham, and Mr. Wickham, of Jackson county, who had recommended Fousin to Mr. K., have been assiduous in their efforts to arrest the murderers, and deserve credit therefor.—*Sacramento (California,) Union, Jan. 4th, 1858.*

LESSONS IN
Foreign Languages.
MR. AND MRS. L. S. R. DE CRETY, from Paris, for four years past instructors in foreign languages in Milwaukee, have the honor to inform the public that they will form classes in the French, Italian and Spanish languages on the 1st of September next. The course of instruction will be according to the age and intelligence of the pupils, and the classes kept entirely separate, their house being arranged with that view.
Gentlemen and ladies who wish to speak either of these languages, can receive lessons in Reading and Conversation, Mr. De Crety furnishing books of the best French authors. Those too wishing to learn vocal music in either of those languages, will find a competent music teacher in the establishment.
The hours of instruction will be from 8 to 11 o'clock A. M., and from 2 to 5 P. M.. And in the evening from half past 6 to 8, for conversation.
Mr. De Crety will also give lessons in French, Spanish and Italian, at his office, to gentlemen only, from 7 to 10 o'clock in the evening, as also lessons in Fencing, the use of the sword and all military exercises. For persons of delicate constitution and feeble temperament, as also those confined to their offices and engaged in sedentary pursuits, will derive from these exercises, improvement in their health, acquire strength in their limbs and find an agreeable recreation.
Mr. De Crety will also form similar classes for children, from 10 to 15 years old, at his house, or office, as parents may prefer. Fathers and mothers who desire to see their children strong, active and robust, can judge for themselves, after a few weeks trial, as to the effect of these different exercises upon their health.
The continued patronage of the public is respectfully solicited.

TO MERCHANTS.—Mr. De Crety will take charge of French correspondence to all the principalities of France and will procure all Price Currents that they may want.
